## CCTV Budget Cuts & the Riots How Did We Adapt?

To be held at the Bristol Marriott Royal Hotel, Bristol  
Tuesday 6th March 2012

We are delighted to announce the next Global MSC Security Seminar and Exhibition aimed at CCTV, Facility and Security Managers, is being staged at the Bristol Marriott Royal Hotel in Bristol between 09.00 and 16.30 on Tuesday 6th March 2012.

With many organisations facing austerity measures, security provision is one of the areas that is being hit with budget cuts. The recent riots in the UK were a test to how effective the new streamlined security systems are. This seminar will address issues faced by security managers and police authorities whilst implementing the changes. Additionally we will be looking at how CCTV has played a key part in identifying those responsible for the violence, theft and devastating damage to homes and businesses during the civil disturbances earlier this year. This **FREE** Seminar will bring together industry experts to discuss the impact of the Protection of Freedoms Bill and how it will affect the security industry. Additionally, this Seminar is complimented by a substantial exhibition of cutting edge security technology and service providers.

For more information regarding this **FREE** event, please visit our website at: [www.globalmsc.net](http://www.globalmsc.net)

Please book \_\_\_\_\_ places at the Seminar on Tuesday 6th March 2012
