Dear Sir / Madam

Re: Global MSC Security

We commissioned Global MSC Security to carry out an options appraisal for our 24-Hour Control Room and they provided an outstanding service. They know the business inside out and they know a lot of people within it. Basically, they just got on with the brief that we gave them and they provided exactly what we wanted within the timescales we requested - including a detailed assessment of where we are and our options for moving forward. I would have no hesitation in recommending their services to others.

Yours faithfully

Graham Curel
