Sample of Projects Undertaken:

- Assess and audit a 180-camera system for **Exeter City Council**; make recommendations. Compile tender specification to migrate from analogue to IP/digital for new control room and additional cameras to the value of circa £600k
- Created CCTV tender specification for circa 240 cameras the **City of Edinburgh Council** to integrate to a Smart City solution
- Develop CCTV Policy and Strategy for **London Borough of Barnet**; there were 98 recommendations to improve CCTV compliance, efficiency and to make the service more cost effective by streamlining services. Compile tender specification to relocate control room to council owned premises and create new wireless transmission resilient ring
- Undertook a strategic technological review for the **Royal Borough of Windsor and Maidenhead** to migrate its 220+ PSS camera system to a wireless transmission avoiding the third-party rental of fibre optic circuits. Examine options to outsource service to another third-party provider
- Carry out and develop CCTV Strategy for **Bristol City Council** encompassing 1,700 cameras across the council portfolio including 900 PSS cameras, ANPR enforcement, journey time and police intelligence. Made 69 recommendations for the reduction of duplication and expenditure.
- Carry out strategic review of PSS CCTV for the 10 local authority CCTV systems across the **Thames Valley Police** area for the Police and Crime Commissioner. We will identify a common platform linked with a suitable network to enable police departments to access CCTV data from remote locations and improve the efficiency of the administration of justice
- Carry out evaluation for the **Police and Crime Commissioner for Dorset** to provide options regarding the closure of two CCTV control rooms; make recommendations for the delivery of CCTV images to Dorset Police HQ and the seamless delivery of evidence to police custody suites
- Audit 270 cameras PSS CCTV system for the **London Borough of Merton**; recommend 46 improvements to reduce costs and improve efficiency. Compile tender specification for upgrade of control room GUI Video Management System and the installation of 41 ANPR enforcement cameras to speed the flow of traffic and generate an income
- **University of the West of England**; design a 300+ internal and external CCTV system and 250+ access control system across its main campus at Frenchay
- **Aylesbury Vale District Council** – Design, procure and Project Manage migration of CCTV control room from old to new police station half mile away
- **Your Homes Newcastle** – Project Manager in a concierge service review valued at £15 million
- **South Gloucester Council** – Design and supervise installation of 10 km private fibre optic 44 camera system for seven town centre areas and monitored by neighbouring authority; produce CCTV Strategy
